“Fourteen” out of these parameters have shown positive impact and improved compare to the previous year. Thirteen parameters have shown no change or little drop. Six parameters require marginal improvement. The following are the reasons and corrective actions taken for betterment.

**VIGNAN'S INSTITUTE OF INFORMATION TECHNOLOGY (A): VSKP**

**EXIT FEEDBACK REPORT**

<b>S.No.</b>	<b>Parameter</b>	<b>Reason for decline</b>	<b>Corrective action taken</b>
1	Internet Access	The mode of teaching is shifted from offline mode (Physical presence) to online mode due to Covid -19 pandemic. High quality online lectures with inclusion of animations and videos prepared in-house. This requires high bandwidth internet to reach to the entire volume of students at a time.	Additional 100 MBPS is added recently.
2	Sports facilities	For the recently exited batch the concentration was more on training and placements and sporting facilities were limited to highly performing students.	A new course from 2019 admitted batch "Extracurricular activities, sports & games" is introduced as a mandatory course so that every student gets opportunity to improve in sports activities and physical fitness.
3	Cultural activities	The participation in cultural activities was encouraged to meritorious students only who can cope up with both academics and activities in parallel. However all students are encouraged to participate in a yearly mega event "YUVTARANG".	At least TWO events- one at department level and other at Institute level are proposed. However the implementation depends up on the status of Covid-19.
4	Other Activities	Only one program in the name of VISTA (Tech fest) is organising every year as part of Engineers' day celebrations at Institute level.	At least TWO events- one at department level and other at Institute level are proposed. However the implementation may be through online also depending up on the status of Covid-19.
5	Skills Imparted	Centre for innovation & student's activity centre are jointly organising some of the events. But participation is not up to the mark.	A new course from 2019 admitted batch "Engineering exploration & Societal oriented mini project are introduced as credit courses so that every student gets opportunity to improve their skills. Two centres of skill development are established in collaboration with APSSDC (CM skill development centre & Dassaults systemes lab), CISCO networking. More students are expected to train.
6	Placement cell functions	Civil Engineering and Mechanical Engineering students are expecting placements in core companies.	MOUs are planned with many local industries to impart technical skills for Civil & Mechanical Engineering students to make them ready for employment.
